Dear [redacted]

**[redacted]**
**Notification of the Right Secondary Shaft at Operating Unit Rockville No.2**
**Notice Under Period P-1, 18, 2005 Outage**
**[redacted]**

[redacted]

In accordance with requirement no. 11 in the "Final Inspection" section of the referenced permit, we have taken full use "Notice Inspection Report" for the notification of the right secondary shaft of the Rockville No.2. The date I received the letter, the report describes the inspection of the ring geotechnical and includes the pricing info of the inspection & repairs and the additional work taken after consideration was completed. Finally, the project site been very good.

I would like to give you notice that within one or two weeks after project completion, follow up one I have been provided the copies of the original inspection reports and letter, attached by Dynegy. I requested we should not to [illegible] Report Support incidental that would [illegible] the original [illegible] proceedings were taken place the project outline, [illegible] the [illegible] [illegible]. Our progress report required to be submitted by November 30, 2017 will [illegible] the condition of all checkings.

We appreciate the cooperation of the [illegible] working on a [illegible] project to [illegible] with this project. Please feel free to contact me if you have questions regarding this correspondence.

Sincerely,
