040.3.1.342 120 TEMPO

The image shows the GarageBand software interface for a project titled "My Song 2". The interface is divided into several sections. At the top, there is a timeline with markers from 32 to 42. Below the timeline, there are two tracks: "Grand Piano" and "dogpoop". The "Grand Piano" track is currently selected. The "dogpoop" track has a purple region labeled "dogpoop" that spans from approximately 34 to 40 on the timeline. The interface also includes a mixer section with volume and pan controls for each track. At the bottom, there is a transport section with buttons for play, stop, and other functions, along with a digital display showing the current time (040.3.1.342) and tempo (120). The interface is framed by a wooden border.
