RE: **Mobile Fort Vermilion River Erosion Mitigation and Streambank Stabilization**
Vermilion (Mx, Colwood) Reach
Section 408 and 401 Joint Permit Application

[REDACTED]

Please find enclosed our section 408 and 401 joint permit application, for a proposed, 1,800 linear feet streambank stabilization project located along the right descending bank of the Mobile Fort Vermilion (MFV) River. Luminant is requesting a meeting with your office, to further review our design approach.

Please contact Mr. Phil Morris, a member of our Corporate Environmental team, with any questions or concerns at phil.morris@luminant.com or (800) 343-1794.

Sincerely,
Dynegy-Midwest Generation, LLC
