

Tree and Plant Injury Report Form

Date: _____ Sheet ____ of ____

PLEASE attach photographs whenever feasible to data collection (B&W and color are preferred). If you have a Gmail account, you can upload your form and photos using the online database at: www.jointinjurycenter.org/report (otherwise, email form and photos to: report@jointinjurycenter.org).

Observer: First Name: _____ Last Name: _____

Address: _____ City: _____ Zip: _____

Phone: _____ Email: _____ Website: _____

Site ID: _____ Subunit: _____ County: _____

Visit Planned? ☐ yes ☐ no Visit #: _____ GPS Lat/Long (in Decimal Degrees) N: _____ W: _____

GPS point in relation to sample area: _____

Species and Injury Observed: At least one indicative symptom (**redlined**) under Symptoms must be present (checked), otherwise injury is "U". If multiple species are affected, data from at least two plant families (e.g., oak, redwood) are preferable. Use back of form and notes to record additional affected species.

	Species 1_photos ()	Species 2_photos ()	Species 3_photos ()
Common (or scientific) name			
Approx. number observed			
% foliage affected: 1-25, 26-50, 51-75, 76-100			
Location and range of injury			
SYMPTOMS - Mark "X" if present			
<u>Leaves:</u> curled or cupped			
chlorosis or variegation (especially)			
irregular margins			
drooped			
tattered			
folded, deformed, and/or distorted			
veins bronzed and/or parallel			
<u>Stems:</u> elongated, curled, and/or bent			
growth suppressed and deformed			
<u>Leaves:</u> chlorotic (yellowed)			
necrotic (brown/black areas)			
L" growth			
<u>Trunk:</u> epicormic branching			
dieback			
death			

Notes: Any additional notes, e.g., other affected species, trees sensitive species NOT affected, insect damage, notes drought present, etc.)

Layers: Check for affected layers, checked through if layer is absent: ☐ (Canopy) ☐ (Understory) ☐ (Ground layer)

Geographic Extent of Observed Injury: (check and complete only one with "best fit")

☐ (LARGE) (>1 acre) Type: _____ (e.g., up, forest) Approx. sampled acres: _____ affected acres: _____

☐ (SMALL) (<1 acre) Type: _____ (e.g., road, school, park) Approx. % trees affected: _____

☐ (LINEAR) Type: _____ (e.g., fence-line, edge of woods) Approx. length: _____ (indicate ft or miles)

OPTIONAL Injury Patterns and Land Use: Record injury patterns and land use data on Page 2 of form, (see guidelines).
